

## **UPL Limited joins hand for India's COVID-19 Pandemic Response**

Business has many parameters that go well beyond commercial and financial. We don't operate in isolation, rather are inextricably linked to the society we live in. Our success is also dependent on how well we respond to needs of society in times of crisis.

The present COVID 19 crisis is one of the toughest challenges we have ever faced. As a responsible organisation we are doing our bit for India's COVID-19 Pandemic Response. In the current Covid-19 crisis, all front-line soldiers like Doctors, Nurses, Police, Administration etc are at huge risk. We acknowledge their effort and are deeply grateful to all of them who are risking their life and safety to joins hand for India's COVID-19 Pandemic Response

UPL Limited made an action-plan to **provide hand sanitizer** to the frontline team like police officer and medical staff. It took UPL just 24 hrs from drawing board to dispatching WHO recommended Hand Sanitizer to different cities. As of now, the company has provided around **4,475 liters** of Hand Sanitizer free of cost to the agencies involve in fight against India's COVID-19 Pandemic Response.

Second urgent response was **to provide Sodium Hypochlorite** to sanitize different Municipalities, Government Offices, Villages etc. As of now, the company has provided more around Approx 54,215 Lts of Sodium Hypochlorite.

Our third quick response was through our **AFS team to sanitize Streets, Hospitals, Police stations etc.** through UPL's Falcon sprayers on. The AFS team (as of 28.03.2020) has covered

No. of States	: 6 States (Gujarat, Maharashtra, Telangana, Punjab, Haryana, Rajasthan).
No. of Districts	: 22 Districts.
No. of Tehsil	: 56 Tehsils,
No. of Villages	: 108.
No. of ward	: 254 Wards.

AFS team is working tirelessly in different municipalities and communities to sanitize the roads, streets and common places to contain COVID -19.

UPL engaged women SHGs to manufacture **cotton masks** and distribute them to prevent the spread of coronavirus. The company is providing mask to surrounding villages/ community, to local administration and local police. As of now, the company has provided Approx **15,000 mask**.

As a responsible organisation and in true spirit of UPL's 50-year legacy of taking care of surrounding community. We are also providing **water bottle and food** to frontline soldiers and needy, **N-95 and surgical mask/Sanitizer** to local hospital.

**We are committed and will continue to do more for India's COVID-19 Pandemic Response.**

---

## **About UPL**

UPL is one of the world's leading total crop solutions companies, focused on securing the world's long-term food supply through an integrated portfolio of agricultural inputs, products and solutions.

UPL was established in India in 1969 and is now active in over 130 countries, providing a diversified range of patented and post-patent agriculture solutions for various arable and speciality crops, including biological, crop protection, seed treatment and post-harvest solutions covering the entire crop value chain.

UPL is headquartered in India, with manufacturing facilities in 48 locations worldwide and a global workforce which includes 75 different nationalities. It is committed to research, development and innovation, and holds over 12,000 product registrations and more than 1,000 patents globally.

In 2019, UPL finalized the acquisition of Arysta LifeScience and committed to a new purpose: OpenAg, which creates a seamless network for agriculture, activating connections across the world's agriculture system. UPL is working to power new levels of sustainable growth, and to help generate a deeper impact on society, where agriculture is properly valued, food is sustainable, and farmers grow and prosper. It is a fundamentally optimistic view of the future of agriculture; one with no limits, and no borders, that feeds sustainable growth for all.
